

# PORTFOLIO OPTIMIZATION PORTFOLIOS

Available through Pacific Life Variable Annuities

## PORTFOLIO INFORMATION AS OF 12/31/23

### Why Portfolio Optimization Portfolios

The Portfolio Optimization Portfolios are designed to make investment diversification easier for you by offering:

- **One-Step Diversification:** Each Portfolio Optimization Portfolio is a fund-of-funds diversified among multiple asset classes, providing you with a core asset-allocation solution to help meet your financial goals.
- **A Dedicated Team that Manages Multi-Asset-Class Solutions:** The portfolio management team's investment approach uses three fundamental disciplines:
  - Asset allocation
  - Manager research
  - Investment risk management
- **Target-Risk Portfolios to Fit Your Needs:** The Portfolio Optimization Portfolios range in investment style from conservative to aggressive-growth to help match your risk tolerance and investment goals.

### Why A Pacific Life Variable Annuity

A variable annuity is a long-term contract between you and an insurance company that helps you grow, protect, and manage retirement savings in a tax-advantaged way. Variable annuities can provide:

- **Protected monthly lifetime income** so that you have money for as long as you live.
- **Protection against market loss** through optional benefits that help minimize downside risk.
- **Tax-deferred growth** so that your money grows faster through the power of compounding.
- **Flexible access to your money** should you need it for the unexpected.
- **Protection for your loved ones** if you pass away.

Our variable annuities also offer features such as asset allocation and optional principal protection. Optional benefits are available for an additional cost.

Annuity withdrawals and other distributions of taxable amounts, including death benefit payouts, will be subject to ordinary income tax. For nonqualified contracts, an additional 3.8% federal tax may apply on net investment income. If withdrawals and other distributions are taken prior to age 59½, an additional 10% federal tax may apply. A withdrawal charge also may apply. Withdrawals will reduce the contract value and the value of the death benefits, and also may reduce the value of any optional benefits.

Insurance products can be issued in all states, except New York, by Pacific Life Insurance Company or Pacific Life & Annuity Company. In New York, insurance products are only issued by Pacific Life & Annuity Company. Product/material availability and features may vary by state.

**No bank guarantee • Not a deposit • May lose value  
Not FDIC/NCUA insured • Not insured by any federal government agency**

### Broad Asset-Class Allocations

- Fixed Income
- Domestic Equity
- International Equity

Each underlying fund may include exposure to multiple broad asset classes. Total allocation percentages may not equal 100% due to rounding.

Although some portfolios may have names or investment goals that resemble retail mutual funds managed by the same money manager, these portfolios may not have the same underlying holdings or performance as the retail mutual funds. Investment results may be higher or lower. Morningstar Category classifications represent asset-class categories provided by a third party, Morningstar, Inc. Categories listed within a range of equity exposure indicate the potential equity range for all the investments within the respective category and may not reflect the exact allocation makeup of a variable annuity investment option offered by Pacific Life.

Manager/ Fund Name	Morningstar Category™	Allocation (%)
<b>Fixed Income</b>

## About Risk

Asset allocation, although intended to provide diversification, does not guarantee future results, ensure a profit, or protect against loss. Better returns could be achieved by investing in an individual fund or funds representing a single asset class rather than using asset allocation. A fund-of-funds is subject to its own expenses along with the expenses of the underlying funds. It is typically exposed to the same risks as the underlying funds in which it invests in proportion to the allocation of assets among those underlying funds. Each underlying fund has its own investment goal, strategy, and risks, and many are available for individual purchase. The prospectuses for the underlying funds are available at [PacificLife.com](http://PacificLife.com).

**This material is for informational purposes only and does not constitute investment advice or a recommendation.**

***You should carefully consider a variable annuity's risks, charges, limitations, and expenses, as well as the risks, charges, expenses, and investment goals of the underlying investment options. This and other information about Pacific Life are provided in the product and underlying fund prospectuses. These prospectuses are available from your financial professional or at [PacificLife.com](http://PacificLife.com). Read them carefully before investing.***

Pacific Life Fund Advisors LLC (PLFA), a wholly owned subsidiary of Pacific Life Insurance Company, is the investment adviser to the Portfolio Optimization portfolios and is responsible for determining the asset allocation mix for each portfolio.

Third-party trademarks and service marks are the property of their respective owners.

Under current law, a nonqualified annuity that is owned by an individual is generally entitled to tax deferral. IRAs and qualified plans—such as 401(k)s and 403(b)s—are already tax-deferred. Therefore, a deferred annuity should be used only to fund an IRA or qualified plan to benefit from the annuity's features other than tax deferral. These include lifetime income, death benefit options, and the ability to transfer among investment options without sales or withdrawal charges.

Pacific Life refers to Pacific Life Insurance Company and its affiliates, including Pacific Life & Annuity Company. Insurance products are issued by Pacific Life Insurance Company in all states except New York and in New York by Pacific Life & Annuity Company. Product availability and features may vary by state. Each insurance company is solely responsible for the financial obligations accruing under the products it issues. Insurance product and rider guarantees, including optional benefits and any fixed subaccount crediting rates or annuity payout rates, are backed by the financial strength and claims-paying ability of the issuing insurance company and do not protect the value of the variable investment options. They are not backed by the broker/dealer from which this annuity is purchased, by the insurance agency from which this annuity is purchased, or any affiliates of those entities, and none makes any representations or guarantees regarding the claims-paying ability of the issuing insurance company.

Protected Investment Benefit is named "Guaranteed Minimum Accumulation Benefit" in the contract rider.
