

PACIFIC INDEX DIMENSIONS®

A Deferred, Fixed Indexed Annuity

Purchase Payments

Limited-premium, fixed indexed annuity.¹ 1035 exchange/transfer requests must be submitted with the application and the funds received within 60 days after contract issue. Additional cash purchase payments are permitted within the first 60 days after contract issue, up to a maximum of \$100,000.

Minimum: \$25,000 (nonqualified and qualified).

Maximum: \$1 million; total purchase payments greater than \$1 million require Pacific Life home-office approval in advance.

Age Guidelines

Maximum Annuitant/Owner Issue Age: 80 (Age 79 in Indiana)

Withdrawal Charge Periods

Select one of two withdrawal charge periods:

- Seven years or 10 years.
- Set at contract issue.
- Only one withdrawal charge period may be selected per contract.

Withdrawal Charges & Fees

No annual contract, mortality & expense, or administrative fees.

	Contract Year										
	1	2	3	4	5	6	7	8	9	10	11+
7 Years (Charge per Withdrawal)	10%	10%	9.5%	8.5%	7.5%	6.5%	5.5%	0%			
10 Years (Charge per Withdrawal)	10%	10%	9.5%	8.5%	7.5%	6.5%	5.5%	4.5%	3.5%	2.5%	0%

All withdrawal charge periods may not be available at all times or in all states.

Interest Breakpoints

Breakpoints apply for all Interest-Crediting Options and are based on the initial purchase payment:

- Less than \$100,000
- \$100,000 and more

If a subsequent purchase payment results in the total payments (minus withdrawals and applicable withdrawal charges) exceeding \$100,000, the higher breakpoint will be used in determining the interest credited at the end of the initial term. Once a higher breakpoint is reached, subsequent withdrawals during the initial term will not reduce the breakpoint used to determine interest credited at the end of the initial term. After the initial term, a higher breakpoint will be used to determine interest credited for renewal terms if the contract anniversary value exceeds \$100,000.

¹Modified Guaranteed Equity Index Fixed Annuity in Illinois.

All guarantees are subject to the claims-paying ability and financial strength of the issuing insurance company. Insurance products are issued by Pacific Life Insurance Company. Product availability and features may vary by state.

**No bank guarantee • Not a deposit • May lose value
Not FDIC/NCUA insured • Not insured by any federal government agency**

WHY PACIFIC LIFE

Pacific Life has more than 150 years of experience, and we remain committed to providing quality products, service, and stability to meet your needs today and throughout your lifetime.

It's essential for you to choose a strong and stable company that can help you achieve your future income needs. Since 1868, individuals and their families have relied on the strength of Pacific Life to help protect their financial security.

- Pacific Life Insurance Company is organized under a mutual holding company structure and operates for the benefit of its policyholders and contract owners.
- We have achieved ongoing recognition¹ for high-quality service standards.
- We offer products that address market environments during all stages of your life.
- Pacific Life is designated as one of the 2022 World's Most Ethical Companies^{®2} by the Ethisphere Institute, a global leader in defining and advancing the standards of ethical business practices.
- We maintain strong financial-strength ratings from major independent rating agencies.

Ratings may change. For more information and current financial-strength ratings, please visit [PacificLife.com](https://www.PacificLife.com).

¹Recipient of multiple DALBAR Service Awards since 1997. Refer to www.DALBAR.com for more information regarding awards, certifications, and rankings.

²Based on the Ethisphere Institute's Ethics Quotient[®]. "World's Most Ethical Companies" and "Ethisphere" names and marks are registered trademarks of Ethisphere LLC.

While ratings can be objective indicators of an insurance company's financial strength and can provide a relative measure to help select among insurance companies, they are not guarantees of the future financial strength and/or claims-paying ability of a company. The independent third party from which this annuity is purchased, including the broker/dealer, the insurance agency from which this annuity is purchased, and any affiliates of those entities, make no representations regarding the quality of the analysis conducted by the rating agencies. The rating agencies are not affiliated with the above-mentioned entities nor were they involved in any rating agency's analysis of the insurance companies.

Interest-Crediting Options

- Fixed Account Option
- I4 Index-Linked Options

Fixed Account Option

- Interest credited daily.
- The initial rate is declared at contract issue and guaranteed for one year.
- A renewal interest rate will be declared on each contract anniversary.
- The renewal interest rate will never be lower than the minimum guaranteed interest rate stated in the contract.

Index-Linked Options

Interest may be credited at the end of an index term depending on the amount of change in an index price minus the spread (if applicable). If there are additional purchase payments within the first 60 days after contract issue, interest will be credited proportionately based on the index return from the time the additional purchase payment is received to the end of the term. This period may be less than the time frames listed below.

The initial caps, declared interest rates, participation rates, and spreads will depend on the Index-Linked Option chosen and the total of all purchase payments received (minus withdrawals and applicable withdrawal charges) in the first year. The initial caps, declared interest rates, participation rates, and spreads are set at issue and guaranteed for the initial index term.

On each contract anniversary, guaranteed rates, renewal caps, declared interest rates, participation rates, and spreads will be declared at the end of the index term. Pacific Life determines, at its discretion, guaranteed rates, renewal caps, declared interest rates, and participation rates in excess of the minimum guaranteed in the contract, and spreads below the maximum guaranteed in the contract.

S&P 500® Index	MSCI EAFE® Index (Europe, Australasia, and the Far East)	BlackRock Endura® Index ¹	BofA Iris U.S. Sectors Index SM
<ul style="list-style-type: none"> ○ 1-Year Point-to-Point with Cap ○ 1-Year Participation Rate ○ 1-Year Enhanced Participation Rate ○ 1-Year Performance-Triggered Index Option 	<ul style="list-style-type: none"> ○ 1-Year Point-to-Point with Cap ○ 1-Year Participation Rate ○ 1-Year Enhanced Participation Rate ○ 1-Year Performance-Triggered Index Option 	<ul style="list-style-type: none"> ○ 1-Year Point-to-Point with Spread 	<ul style="list-style-type: none"> ○ 1-Year Point-to-Point with Cap ○ 1-Year Participation Rate ○ 2-Year Participation Rate ○ 1-Year Enhanced Participation Rate ○ 2-Year Enhanced Participation Rate

Index Lock-In Feature

- Available on the BofA Iris U.S. Sectors Index 2-Year Participation Rate and 2-Year Enhanced Participation Rate.
- You have the ability to lock in the index price on a given day before the end of the term. The index price will remain locked until the end of the 2-year term. Interest will not be credited until the end of the index term, but will use the locked-in index price when calculating the index-linked interest.
- An election may not be made until 60 days after the term beginning date and can be made only once during each index term for each available crediting option.

The index price will be used to calculate the interest credited at the end of the term. Once the election is made, the Index Lock-In Feature is irrevocable and cannot be undone, even if the index price increases during the remainder of the term. Under certain scenarios, the contract may not be credited any interest at the end of the term. Before electing the Index Lock-In Feature, speak with your financial professional to assist in evaluating the index-linked option selected in the contract and when exercising this feature may be right for you.

¹The BlackRock iBLD Endura® VC 5.5 ER Index is referred to as the BlackRock Endura® Index for ease of reference.

Transfers

- Effective on a contract anniversary, but can be requested up to 30 days after the contract anniversary.
- Transfer the value from the Fixed Account Option and expired index terms to any available Index-Linked Option or the Fixed Account Option.

Guaranteed Minimum Surrender Value

The Guaranteed Minimum Surrender Value is equal to 87.5% of purchase payments, minus prior withdrawals, accumulated at a fixed interest rate set at contract issue. The Guaranteed Minimum Surrender Value is guaranteed for the life of the contract.

Applies at:

- Full withdrawal.
- Death.
- Annuitization.

You are guaranteed to receive the greater of the contract value (minus applicable optional benefit charges, a market value adjustment (MVA), and/or withdrawal charges) or the Guaranteed Minimum Surrender Value.

Withdrawals Market Value Adjustments (MVAs)

Withdrawals and contract values annuitized before the end of the withdrawal charge period, in excess of 10% of the prior anniversary's contract value (10% of purchase payments in the first year), may be subject to an MVA (in addition to any applicable withdrawal charges), so you should carefully consider your income needs before you purchase a contract.

The MVA is based on a formula designed to respond to interest-rate movements. As a general rule, if interest rates have stayed the same or risen since the contract was issued, the MVA can reduce the amount withdrawn. If interest rates have fallen, the MVA can increase the amount withdrawn, up to a specified maximum. In no event will the MVA cause the withdrawal amount to be less than the Guaranteed Minimum Surrender Value.

There is no MVA assessed on withdrawals made after the withdrawal charge period has expired.

Withdrawals without Charge

Withdrawals are permitted 30 days after contract issue. In the first contract year, 10% of the total purchase payments are available without a withdrawal charge or MVA. In subsequent years, 10% of the previous contract anniversary's contract value is available annually with no withdrawal charge or MVA.

In addition, the withdrawal charge and the MVA will be waived for:

- Required minimum distribution (RMD) withdrawals (only if calculated by Pacific Life).
- Withdrawals after the first contract year if you are diagnosed with a terminal illness (life expectancy of 12 months or fewer; 24 months in Kansas).
- Withdrawals after 90 days of contract issue if you are confined to an accredited nursing home for 30 days or more, as long as the confinement to a nursing home began after the contract was issued. Not available in Massachusetts.
- Withdrawals after 90 days of contract issue if the owner or annuitant has been confined to an accredited facility that provides skilled nursing care and/or long-term care services for 30 days or more, and the confinement began after the contract was issued. Not available in Massachusetts.
- Beneficiary benefit proceeds.

Note: For Index-Linked Options, no interest is earned or credited on amounts withdrawn prior to the end of an index term.

Annuity withdrawals and other distributions of taxable amounts, including beneficiary benefit payouts, will be subject to ordinary income tax. For nonqualified contracts, an additional 3.8% federal tax may apply on net investment income. If withdrawals and other distributions are taken prior to age 59½, an additional 10% federal tax may apply. A withdrawal charge and an MVA also may apply. Withdrawals will reduce the contract value, the value of the beneficiary benefits and the Guaranteed Minimum Surrender Value.

**Annuity
Income
Options**

- The amount annuitized is equal to the greater of the contract value or the Guaranteed Minimum Surrender Value.
- Pro rata index-linked interest is credited to the contract value upon annuitization or death.
- Available when the youngest annuitant reaches age 100.¹
- Payments available monthly, quarterly, semiannually, or annually.
Payout options available:
 - Life with Period Certain² (5 years; 10 years in Iowa).
 - Joint and Survivor Life.

**Standard
Death
Benefit**

For no additional cost, the standard death benefit can help protect an amount for your beneficiaries and may avoid the cost and delays of probate. If death occurs before annuity income payments begin, the standard death benefit is equal to the greater of the contract value or the Guaranteed Minimum Surrender Value and is paid upon the death of the first owner or last annuitant. Pro rata index-linked interest is credited to the contract value on the Notice Date (the date Pacific Life receives the beneficiary benefit claim in good order).

**Optional
Beneficiary
Benefit**

Interest Enhanced Death Benefit is an optional benefit that guarantees your beneficiary benefit will grow annually by the amount of interest credited to your contract, plus an additional 2%, for either 20 years or until age 85, whichever is earlier. The charge for this benefit is 0.40% of the Death Benefit Base deducted annually from your contract value (not the Death Benefit Base). Your beneficiaries will receive the greater of your Interest Enhanced Death Benefit Base or the standard death benefit amount upon your death. This optional benefit is subject to state availability and variations. Please refer to the *Interest Enhanced Death Benefit* brochure for more information and work with your financial professional to determine if this optional benefit is appropriate for your financial needs.

¹In Florida, available one year after contract issue. An MVA may apply.

²For qualified contracts, the maximum length of time for the Period Certain options may be less than 30 years, if necessary, to comply with required minimum distribution (RMD) regulations for annuities.
